

ABISSO STUDIO

Film production and consultancy company

**Abisso Studio is a brand new
film production, consultancy
and service company based
in Trento, Northern Italy.**

**Fall into
the Abyss**

Italian Public Film Funds & Tax Credit

We provide a consulting service for production companies that need support in applying for funds to the Italian Ministry of Culture (MIC).

In particular, we deal with the processing of applications for:

- DGCOL Company Registration
- Project Registration (Anagrafica);
- Tax Credit (eligibility, preliminary and final);
- Selective Grants (development and pre-production, production and international minority co-production);

- Automatic Grants; Italian Nationality (preliminary and final);

- PRCA Project Registration.

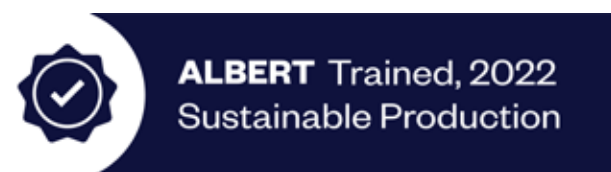

We also help productions in applying for the funds of some Italian Film Commissions.

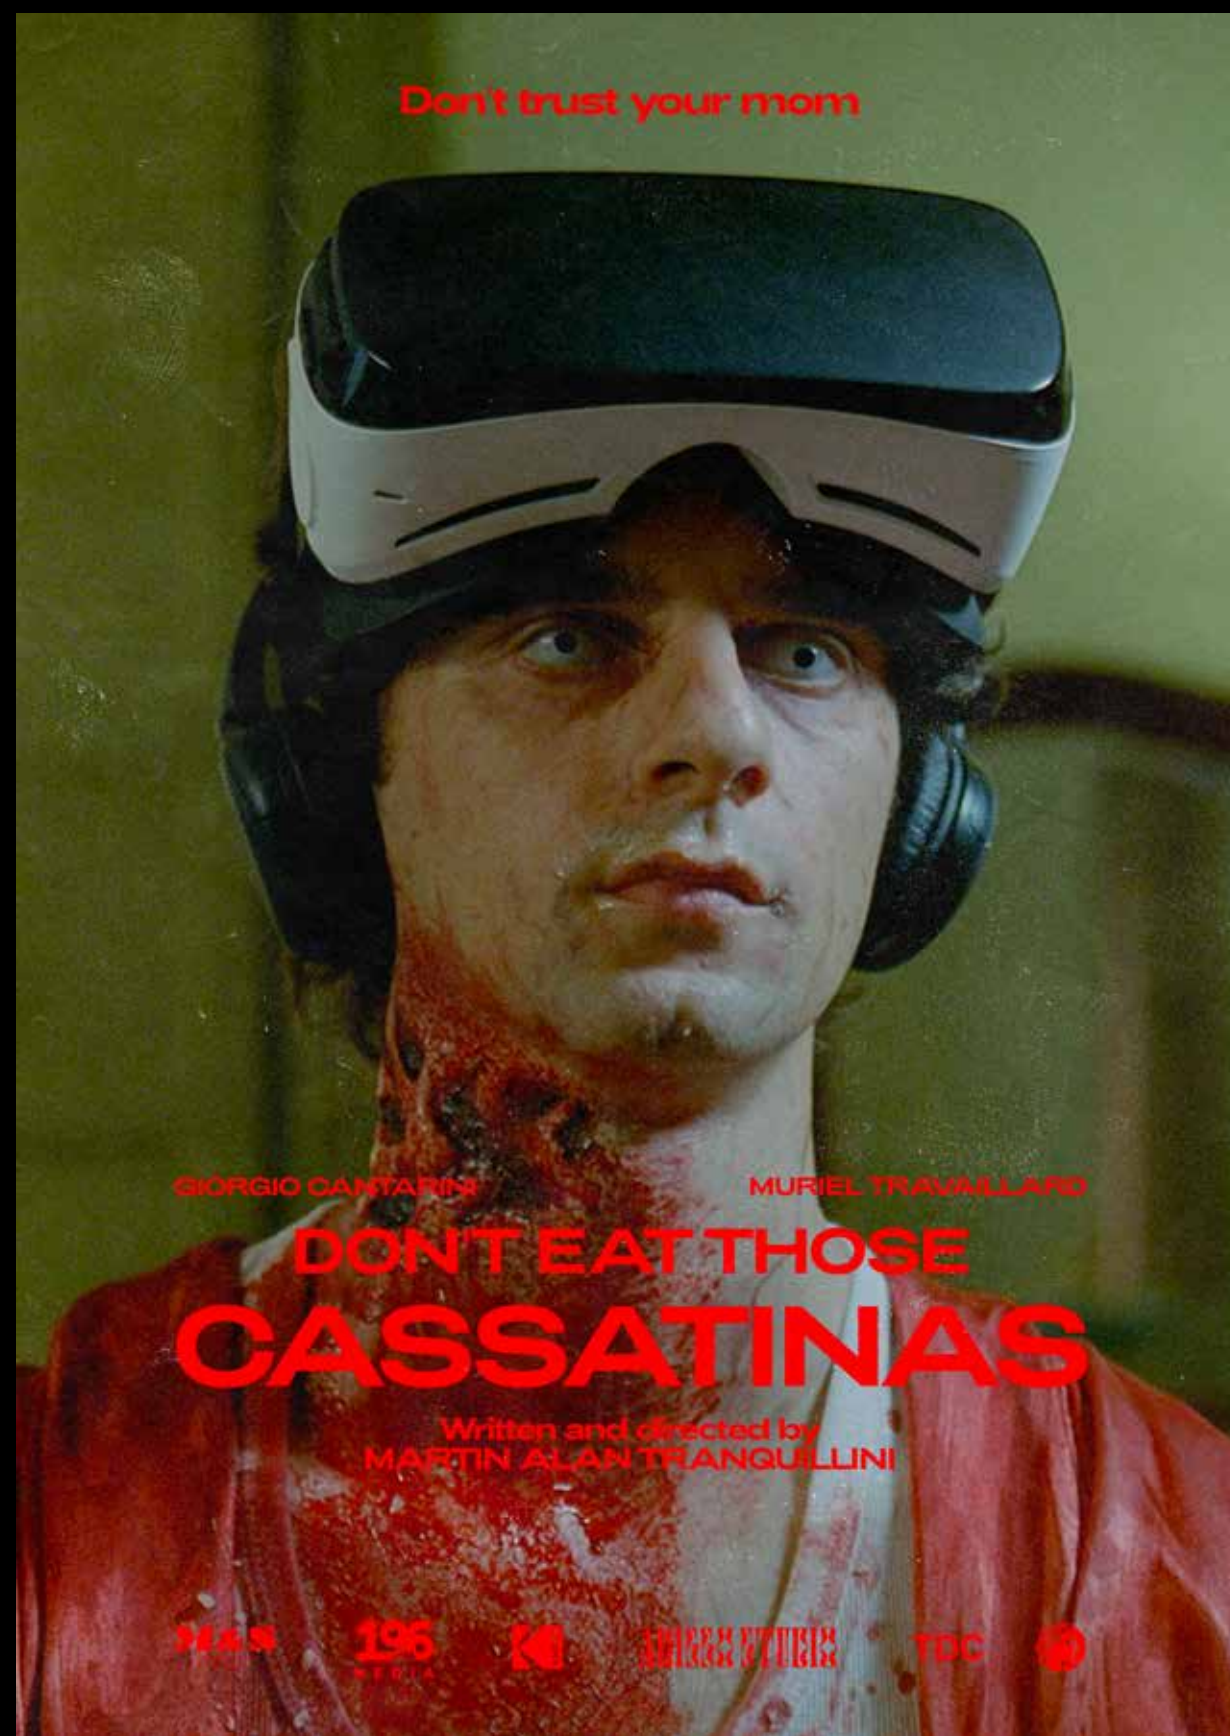

Green Film Production

Climate change is happening. Now. The film industry is organizing itself to decrease this process and various certifications have appeared to attest to the sustainability of a film.

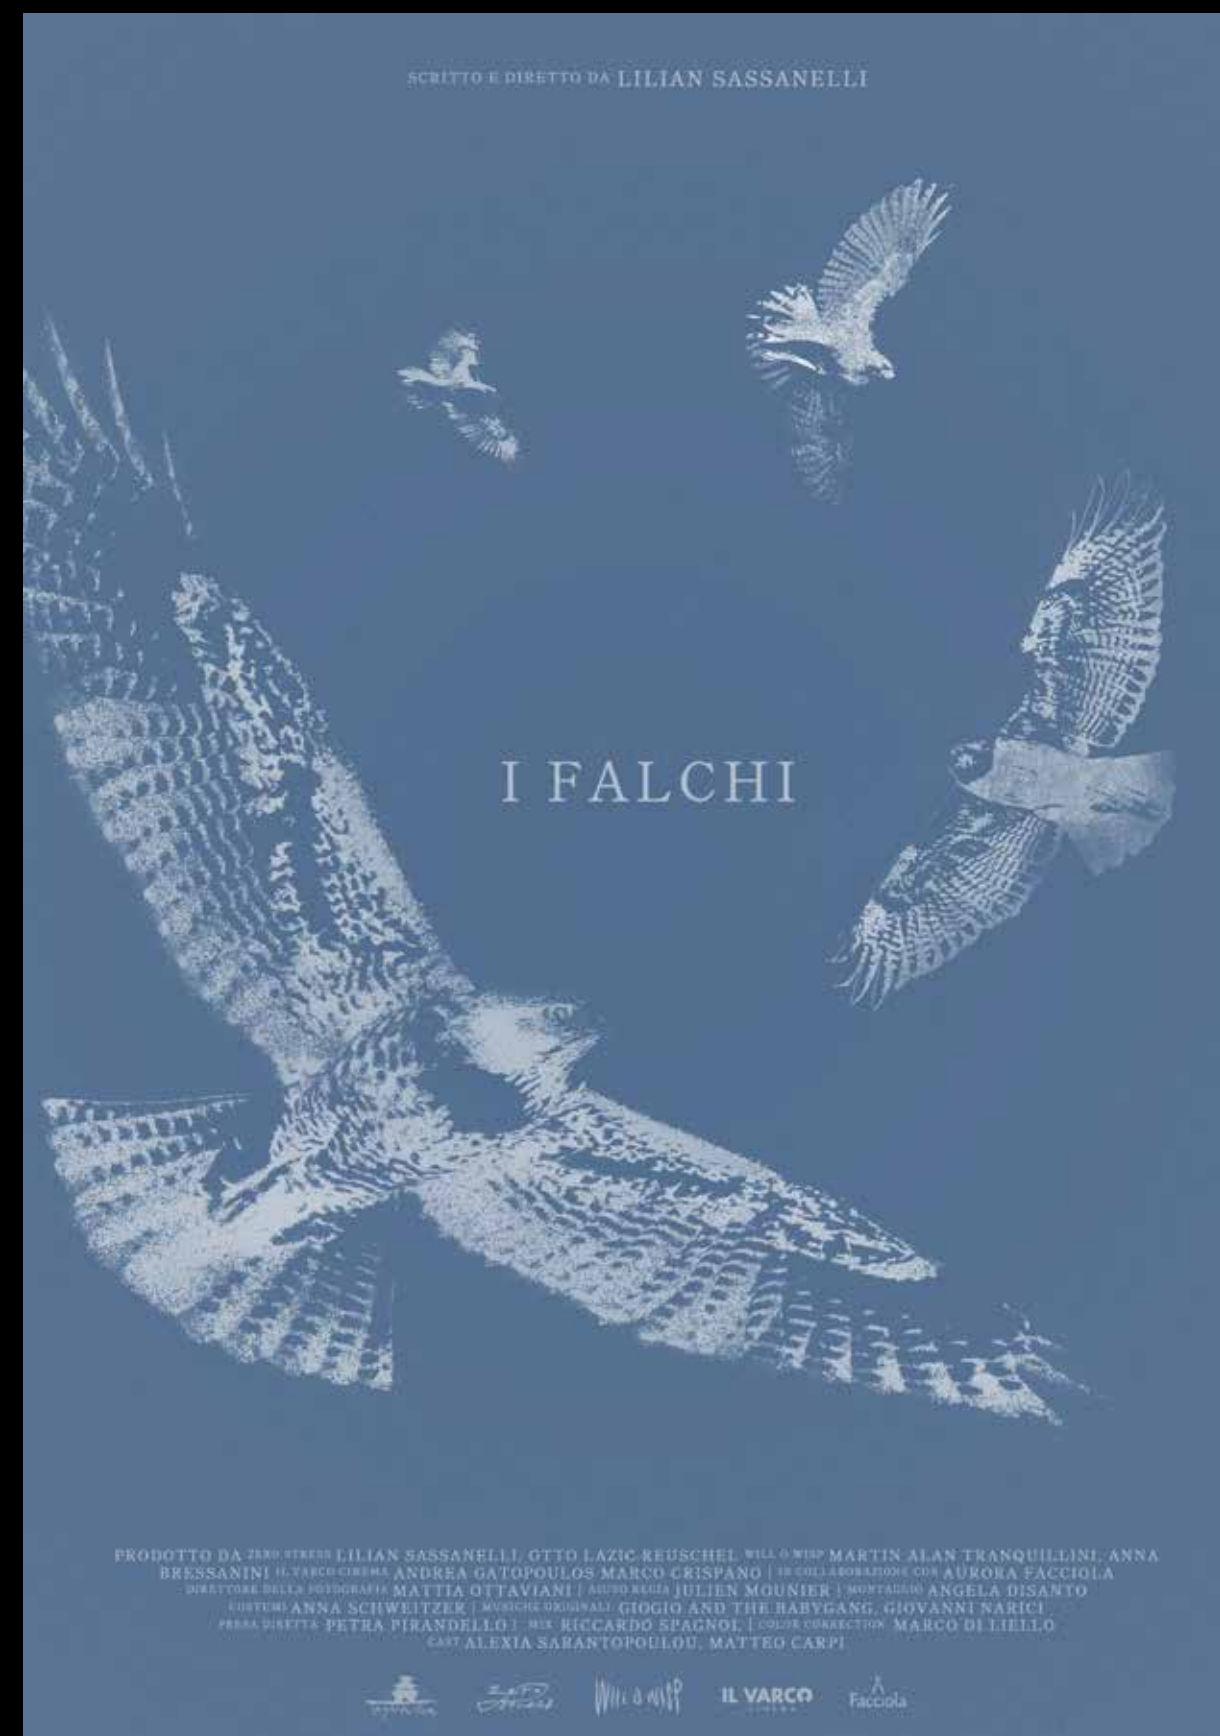

Our consultancy service is focused on helping and guiding producers to make the best choices to reduce their CO2 emissions as much as possible and to obtain a “green” certification.
